INDIAN FIELD SERVICE

Southern Navajo Agency,
Fort Defiance, Arizona,
April 16, 1930.

The Commissioner of Indian Affairs,
Washington, D. C.

Dear Sir:

In reply to Office letter of above reference, relating to the 1929 census tabulation of this jurisdiction, I have to make the following explanation concerning the apparent duplication of numbers, as stated in your letter.

The census clerk informs me that in compiling the census on the regular forms, which was done by several typists, that inadvertently line numbers 2589 to 2689 were duplicated, and the work had progressed to such an extent before the error was discovered, it did not seem practicable, in view of the urgent necessity to submit report, to re-write the many pages required in order to properly correct the mistake. It was therefore decided to adjust the matter, so far as total population of the jurisdiction was concerned, by deducting 100 in determining this total. In the preparation of the census for the next year, this mistake and others which have been discovered, will be corrected.

As I read over the letter of explanation, which is the first sheet of the census return, and apply the instructions given therein, no difficulty is experienced. Owing to the fact that the census return was in the process of being compiled as the census was being taken, it was impossible for us to observe any alphabetical arrangement except in the case of the first letter in the name of the head of the family. This rule was consistently followed, and with reference to Chee Dodge and family, you will find his name under the letter "C" towards the close of the "C" record. Mr. Dodge's line number is 13099, and that of his wife 13100.

You state the impossibility of locating names of Navajo Indians belonging to this jurisdiction who have died, and whose death certificates have been received without identification number. In this connection I have to advise that according to our records, such certificates were transmitted to your Office before our census was completed, and since a great many of the Navajos have more than one name, your difficulty can be understood. On the completion of the census, and its transmittal to

your Office on date of October 14, 1929, we have consistently supplied identification numbers in all death certificates forwarded. The identification number is the only means in many cases, and the only sure means in all cases to locate the individual on the census roll.

The census now being taken by the Bureau of the Census will aid us greatly in verifying and correcting our records, as special information, which we require for this purpose, is being obtained by each enumerator concerning every family enumerated. This information will be compiled before our next census return is made, and our rolls will be corrected accordingly.

Very truly yours,

John G. Hunter
